## Cleveland Harbor – Dike 10B CDF

### **Project Features**

- Cleveland Harbor Dike 10B CDF is an in-lake facility attached to land in Cleveland, OH. The CDF is located on the west side of Dike 13 CDF; adjacent to and north of the Burke Lakefront Municipal Airport.
- Navigation Project Served: Cleveland Harbor
- The CDF was constructed in 1998 under authority from project specific O&M and is nearly full with less than one year of capacity remaining.
- Cleveland Harbor Dike 10B CDF has an area of 68 acres, has a total capacity of 2,900,000 cubic yards, and receives about 300,000 cubic yards annually.
- The CDF is owned by the City of Cleveland, OH and is operated by the US Army Corps of Engineers.

### **Beneficial Use Information**

- The material in this site has a mixed grain size.
- Direct transportation access to the CDF is available via road and water in addition to possible transportation access by rail within one mile of the site.
- The US Army Corps of Engineers has the authority to remove or sell material from this CDF. Interested parties can contact Craig Forget at [craig.m.forget@usace.army.mil](mailto:craig.m.forget@usace.army.mil).

### **Post Closure Use**

- The post closure use of Cleveland Harbor Dike 10B CDF is intended for airport expansion.

## Cleveland Harbor – Dike 12 CDF

### **Project Features**

- Cleveland Harbor Dike 12 CDF is an in-lake facility attached to land in Cleveland, OH. The CDF is located east of Dike 10B CDF, adjacent to the Burke Lakefront Municipal Airport.
- Navigation Project Served: Cleveland Harbor
- The CDF was constructed in 1974 under authority from Section 123. As an interim measure, berms are currently being constructed within the facility to facilitate the placement of an additional 805,000 cubic yards of dredged material. Less than five years of capacity will be gained once the berm construction is completed.
- Cleveland Harbor Dike 12 CDF has an area of 56 acres, has a total capacity of 2,760,000 cubic yards, and is expected to receive about 250,000 cubic yards annually when it reopens in 2008; 225,000 cubic yards Corps dredging and 25,000 cubic yards non-Corps dredging per year.
- The CDF is owned and operated by the Cleveland-Cuyahoga County Port Authority.

### **Beneficial Use Information**

- The material in this site has a mixed grain size.
- Direct transportation access to the CDF is available via road and water in addition to possible transportation access by rail within one mile of the site.
- The Cleveland-Cuyahoga County Port Authority has the authority to remove or sell material from this CDF. Interested parties can contact Craig Forget at [craig.m.forget@usace.army.mil](mailto:craig.m.forget@usace.army.mil).

### **Post Closure Use**

- The post closure use of Cleveland Harbor Dike 12 CDF is intended for airport related use.
